

# Join our FANs & Drive the Future of Bio-Based Technologies!

*Are you passionate about innovation in agriculture and forestry? Join our Forest and Agriculture Networks (FANs), committed to advancing bio-based technologies (BBTs) through knowledge transfer and collaboration!*

## BBioNets Knowledge Transfer Activities 2025-2026

BBioNets is launching a series of Knowledge Transfer activities to empower farmers, foresters and rural stakeholders with the latest insights and best practices in BBTs. Here's what's planned:

### Info-Days (Feb 2025 – Nov 2025)

### Train-the-Trainers Workshops (July 2025 – Feb 2026)

Three regional info-days will highlight the critical role of Operational Groups (OGs) in sharing BBTs and showcase region-specific innovations.

- ◆ Target Groups: Farmers, foresters, cooperatives, young professionals, rural entrepreneurs.
- ◆ Format: Presentations, panel discussions, interactive sessions.

Designed to equip advisors and project partners with tools to support BBT adoption, these workshops will facilitate hands-on learning and experience sharing.

- ◆ Topics: Bio-based innovations, overcoming adoption barriers, best practices.
- ◆ Approach: Case studies, action labs, reverse brainstorming.
- ◆ Outcome: Strengthened networks and practical strategies for implementation.

### Small-Scale Mentoring (Feb 2026 – May 2026)

A structured mentoring initiative connecting experienced professionals with farmers and foresters to provide tailored guidance on BBT implementation.

- ◆ Process: Individual needs assessment, analysis, and one-on-one mentoring.
- ◆ Selection Criteria: Access to organic residues, potential for knowledge multiplication.

### Why Join the FANs?

- ✓ Access cutting-edge knowledge on bio-based technologies.
- ✓ Expand your network with industry leaders and peers.
- ✓ Participate in exclusive mentoring and training opportunities.
- ✓ Contribute to shaping sustainable innovation in agriculture and forestry.
